

Wheelz™

PROTECTIVE EYEWEAR

Born To Be Wild. Born To Be Safe.

Whether on the job or on the open road, **Wheelz™** is the ideal eyewear for those who like to work hard.

Designed to be the best of both worlds, **Wheelz™** is one part safety glass and one part safety goggle. It offers the style and comfort of popular spectacles, while providing excellent protection against dirt, debris and liquid splash – just like you would expect from a safety goggle.

And, unlike traditional goggles that are big and bulky, **Wheelz™** comes with a compact frame that's light and comfortable. Plus, with the patented Whirlwind™ ventilation system, fogging is kept to a minimum.

So work hard, and then hit the open road... without ever having to worry about anything hitting you.

Gateway
SAFETY

Part safety glass. Part safety goggle. **Wheelz™** is ideal for workers who want durable eye protection that really looks good.

Wheelz™ Features

- Ideal for protection against dirt, debris and liquid splash.
- Lightweight, compact frame is more comfortable than traditional goggles, which tend to be big and bulky.
- Frame is made of a soft, flexible material, providing additional comfort for long days on the job site.
- Whirlwind™ ventilation system minimizes fogging by circulating air through the optical chamber.
- Elastic head strap can be easily adjusted to ensure a safe, snug fit – regardless of the worker's head size.
- Available in 3.0 and 5.0 IR Filter versions.
